Frameworks & Libraries: React, Next, Redux, React Router, React Query, Express, MySQL, Auth0, Material-UI, Tailwind

Tools: Azure, AWS, WordPress, Pantheon, Git, GitHub, REST API's, Docker, Figma, Jira, Jest, Webpack, Storybook

EXPERIENCE

SENIOR FRONTEND DEVELOPER

The Mx Group

August 2022 - Present, Seattle, WA

- Delivered 10+ enterprise-level websites and applications for the second largest B2B marketing agency in the US.
- Built an internal software development toolkit, reducing development cost of new projects by 25%.
- Reduced frontend React code redundancy by 60% and increased developer workflow by 20% through implementing a company-wide component design system for a Fortune 500 client.
- Established project requirements with UX and Product teams, supported junior developers, and performed code reviews.
- Performed diligent monitoring for security threats and promptly implemented bug fixes to ensure robust system integrity and stability across 40+ client websites.

FRONTEND DEVELOPER

HMS Marketing

March 2019 - August 2022, Seattle, WA

- Built and maintained a React/TypeScript SPA (single page application) that manages over \$2 billion per year in home sales for America's biggest homebuilders.
- Implemented a REST API layer to extract data into a microservice architecture pattern, reducing errors by 40% across 4,000+ yearly real estate transactions.
- Automated manual data imports, saving each member of the administrative team 5-10 hours per week, increasing profit 10%.
- Optimized the unit testing, deployment, and development processes across AWS, GitHub, and NetSuite.

BUSINESS TECHNOLOGY CONSULTANT

Ryan Evans Consulting

July 2013 - March 2019, Seattle, WA

- Consulted 15+ clients on overhauling sales systems, technology needs, and business strategies.
- Led multiple clients through successful expansions into new countries.
- Integrated tools including Jira, GitHub, Zendesk, Salesforce, HubSpot, Jest, and more, streamlining technology systems across organizations.

DIRECTOR

X-Team

February 2016 - September 2017, Melbourne, VIC

- Scaled technology teams of Fortune 500's by placing software development staff on contract assignments for a leading software development agency.
- Sold 15+ software development projects worth over \$100k to new and existing clients.
- Led expansion of 100+ team of software engineers into Australian market, greatly expanding sales territory and company presence.

EDUCATION

Bachelor of Business Administration

Western Washington University • Bellingham, WA • 2014
